

NAME OF ARTIST : **Grade: Letter (percent)**

Grading Guidelines:

This assignment was to practice controlling particles and particle instances as well as reviewing copy stamping. In addition you were required to work in teams and using light instancing.

80 if the minimum requirements are met – enhancements and quality of work raise the level above 80.

- -5 is not following submission naming conventions
- -10 if no .mov file included
- -10 if models too simplistic
- -10 if not following suggested proposal

As discussed in class, the focus was to gain control of the particle behavior

Comments:

- ✓timestamp, submission guidelines
 - ✓believability
 - ✓technical complexity
 - ✓enhancements/aesthetics
-
